

New coupes

Forest block	Compartment	Net plan area (ha)	Jarrah sawlog volume Grades 1 and 2 (m ³)
Arcadia*	04	370	3100
Bristol	02	250	2500
Darrell	02	235	1400
Edward	04	665	3340
Hadfield	02	865	4100
Hoffman	03	445	4420
Inglehope	01	475	4600
Marrinup	02	545	2000
Tumlo	02	745	5100
Tumlo	04	515	2700

Coupes carried forward from 2018 or earlier plans

Forest block	Compartment	Net plan area (ha)	Jarrah sawlog volume Grades 1 and 2 (m ³)
Arcadia*	03	260	32,650 (Combined estimate from coupes of varying stages of completion)
Barton	04	450	
Bombala	04	590	
Bowelling	03	810	
Darrell	02	145	
Denham	03	515	
Denham	04	1270	
Edward	03	645	
Edward	04	45	
Ernest	06	455	
Hedges	04	995	
Holyoake	04	375	
Kennedy	02	240	
Kent	03	365	
Leach	04	895	

Mungalup*	04	630	Mungalup*
Palmer	01	1175	Palmer
Yarragil	02	130	Yarragil

Coupes associated with mining operations

Forest block	Compartment	Net plan area (ha)	Jarrah sawlog volume Grades 1 and 2 (m ³)
Various	Small pods mined within a total target area. Total area mined annually varies up to 1,000 ha.		7,500 <i>(Nominal estimate from annual trends and projected forest condition)</i>
Total		15,100	73,410

* Coupes depicted in Arcadia 03, Arcadia 04 and Mungalup 04 have been scheduled for harvest and are within the boundaries of possible extensions to the Wellington National Park.

Notes:

1. The net plan area is the coupe area less informal and other reserves set aside from timber harvesting. Within the area, detailed coupe planning will further reduce the area available to be harvested by retaining silvicultural exclusion zones and applying other constraints. Areas will be harvested to a range of silvicultural objectives including thinning, regeneration establishment (shelter wood) and regeneration release (gap creation).
2. The supply of other log products will be subject to demand.
3. Additional sawlog volume may be generated from clearing operations associated with utility construction, fencing, or other activities such as salvage from wildfire or storm events.
4. Harvesting operations in some coupes will extend beyond the twelve month period, so a portion of the log volumes will 'carry over' into the next year.
5. Rounding rules applied to the net area:
Coupe size 0 – 5 hectares; rounded up to 5.
Coupe size 6 – 99 hectares; rounded to the nearest 5.
Coupe size greater than or equal to 100 hectares; rounded to the nearest 5.

More information
